RG104 E-1 Box 143 Dec. 1886

Mint of the United States at Philadelphia,

ASSAY DEPARTMENT,

December 16th, 1886.

Sir

While the law does not fix definitely the proportion of Tin & Zinc in the one cent alloy, still we always endeavored to keep it at the following viz. Tin 3 per cent Zinc 2 per cent. In fact I am of the same opinion as the Melter & Refiner, that if the tins were increased and the Zinc diminished, the alloy would be preferable.

Very Respectfully
Jacob B. Eckfeldt
Assayer

abt. 20.000 lbs.

18000
2000 deficit 65 lb.
